Portfolio: monzurul-islam

Codeforce: monzurul.islam2022

Codechef: montikuna_2

CAREER OBJECTIVE

Backend-focused Computer Science graduate with hands-on experience designing and building secure, scalable REST APIs using Python, Django, and Django REST Framework. Proficient in PostgreSQL for data modeling, JWT-based authentication, and cloud deployment via Render with GitHub Actions CI/CD. Seeking a backend engineering position where I can contribute to production systems and grow within a structured engineering team.

SKILL

Languages: Python, JavaScript, TypeScript

Backend: Django, Django REST Framework (DRF), REST APIs, JWT

Databases: MySQL, PostgreSQL

Frontend: React.js(v19), Next.js(v15), HTML5, Tailwind CSS, JavaScript

Concepts: Object-Oriented Programming, DSA, CRUD, Axios

Tools & DevOps: Git, GitHub, Render, Vercel, Postman, AWS, Prisma.

Hard Skill: MS Word, Powerpoint, Excel, Bangla type.

PROJECTS

EduCore ai

Live | Client | Server

(Django, DRF, JWT, Rest APIs, React.js, Next.js, TypeScript)

- Built a full-stack learning platform with role-separated dashboards for students, instructors, and admins, deployed on Vercel and Render.
- Designed a multi-app Django REST Framework backend covering courses, modules, enrollments, progress tracking, certificate issuance, and an admin panel, with PostgreSQL as the production database via dj-database-url.
- Implemented JWT authentication using djangorestframework-simplejwt and dj-rest-auth, with role-based route protection enforced via Next.js Middleware on the frontend.
- Built an instructor approval workflow where admins review, approve, or reject applicants before they can publish courses.
- Integrated Cloudinary for media storage and Gmail SMTP for transactional emails; auto-generated API docs with drf-spectacular.
- Developed the frontend in Next.js 15, React 19, TypeScript, and Tailwind CSS, consuming the REST API via Axios with automatic JWT injection from cookies.

Sports Blog CMS (Python · Django · MySQL)

Live | Client | Server

- Built a content management system from scratch with full CRUD functionality for posts and categories — no third-party CMS libraries.
- Implemented session-based user authentication with role separation between regular users and admins.
- Developed a dedicated admin dashboard for content moderation and user management.

EDUCATION

B.Sc. in Computer Science & Engineering, Port City International University, Chittagong

- CGPA: 3.53 / 4.00

01/2022 – 02/2026

Higher Secondary Certificate, Saraipara Degree College, Chittagong

Chittagong, Bangladesh

- GPA: 4.75 / 5.00

07/2018 – 05/2020

TRAINING

Chittagong, Bangladesh

Computer Science Fundamentals – with Phitron

2023 – 2024

Industry oriented training around 210 hours covering C++, Python, Data Structure and Algorithm, Object Oriented Programming, Competitive Programming, Database Management on SQL and PostgreSQL, Django, Django REST framework, Rest APIs, Server Deploy with AWS

Master Git and GitHub - Beginner to Expert [link](#)

Feb 2025

Covering basic setup, branching, project fork & clone, workflow (staging, upstaging, commit), 2way merge, 3way merge, resolve merge conflict, collaborations.

Next Level Web Development – Programming Hero (Level-2)

April — Sep 2026

AI driven Software Engineering Oriented bootcamp covers Advance Typescript with OOP, Node.js, CRUD with Express.js, Advance PostgreSQL and Database modeling, Prisma ORM, Advance Querying, filtering, Advance Next.js, WT custom Authentication, Docker container and Data Management, AI chat integration with Node.js and automation with n8n.
